

SODEXO's Quality of Life services offering strengthens long-term growth

Paris, September 17, 2009 – In a briefing today in Paris for the investment community, Sodexo (NYSE Euronext Paris FR0000121220 - SW OTC: SDXAY) presented its comprehensive offering for Quality of Life services.

Reinforcing its competitive advantage, Sodexo acts as a strategic partner in providing clients:

- **On-site Service Solutions** (previously called " Food and Facilities Management services")
- **Motivation Solutions** (previously called "Service Vouchers and Cards")

These solutions, designed, managed and delivered by Sodexo, enable clients to enhance their performance through improved employee motivation, organizational efficiency and infrastructure optimization.

Sodexo CEO **Michel Landel** commented, *"Sodexo is most definitely a growth company with a unique positioning. Sodexo teams are the only ones who can propose an extensive, comprehensive and integrated offer. By effectively assisting in creating value for our clients, we help them to achieve their own strategic objectives. The global economic crisis is providing opportunities to further develop our service offering, without any change to our business model. We are in markets with strong potential. For these reasons, we are reaffirming our objective over the mid-term to generate average annual revenue growth of 7% and to reach an operating margin of 6%. Our financial model is, and will continue to be, a key strength enabling us to invest for the long-term and to reinforce our global leadership in Quality of Life services."*
